

ACT[®] Skill Plan

Let IXL take some of the work out of your test prep. Our interactive skill plans for the ACT[®] assessment guide students directly to the skills they need for success.

Available for Math, English, and Reading, our skill plans provide leveled support for students by recommending IXL skills for each ACT[®] score range.

Our plans include skills aligned to all topics covered on the ACT[®] exam for each subject area.

Students can target an ACT[®] score range based on their learning needs and click directly into the aligned skills, building mastery at their own pace.

You can also recommend instructional areas and score ranges for individual students to work through and even assign specific skills as needed.

Monitor student progress for a skill by clicking the bar graph beside it, or click View Report at the top for an overview of student activity for the skill plan.
