IXL is a personalized learning platform that gives teachers everything they need to differentiate instruction and help students grow.

**Illinois 2019-20 IXL Activity**

- **Skills Mastered**: 11,763,397
- **Skills Practiced**: 25,929,764
- **Skills Proficient**: 18,446,605
- **Questions Answered**: 768,753,893
- **Teachers**: 63,478
- **Students**: 464,425

**Notes from the classroom**

"I have seen huge success with IXL. My students' scores have consistently gone up on standardized testing."

"I especially love IXL Analytics. With Live Classroom, I can immediately see who is struggling or not working. And the Trouble Spots report helps me form groups for the next day and understand what students need help with."

Debbie Brogan, Chicago Public Schools, IXL Elite 100 teacher
Comprehensive Curriculum

With more than 8,000 skills across five subject areas aligned to the Common Core and Illinois Learning Standards, IXL is prepared to help you support nearly any learning need.

Interactive Skill Plans

Our skill plans make it even easier to find content that supports what you’re teaching today.

Help students master essential concepts with skills aligned to your state standards, and use our NWEA® MAP and SAT skill plans to direct them to the exact skills they need for testing success.

Targeted Intervention

IXL is an effective partner for schools using MTSS to help struggling students.

Our personalized learning platform also complements your competency-based education model.

Want to learn more about how schools across the state are partnering with IXL to engage students and fill knowledge gaps? Reach out for more details and special pricing options.
